Purchase Macsome iTunes Converter for Mac

Quick Link: To buy a license key for Macsome iTunes Converter for Mac, click [Here](#).

1. Why should I buy Macsome iTunes Converter for Mac?

Put simply, Macsome iTunes Converter for Mac is a shareware, and the trial version has the limitation that you can only convert the first 3 minutes of each audio. After you purchase our product, you will be provided with your Email and Registration Code which will unlock the trial version limitation.

2. What Benefits do we have after Registration?

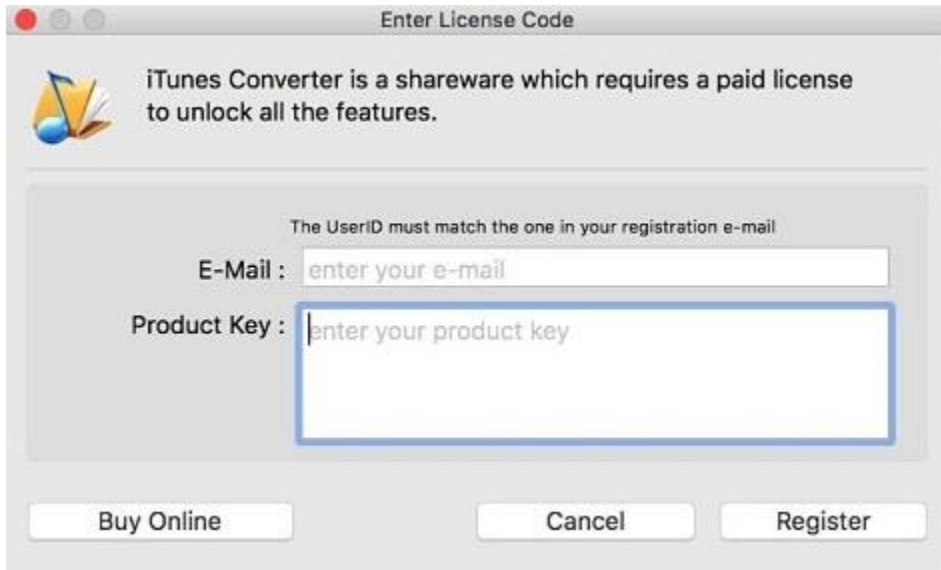

- Unlimited use without any time and function restrictions.
- FREE upgrades to the updated versions of the same product released.

Register Macsome iTunes Converter for Mac

Step 1: Launch Macsome iTunes Converter for Mac. Click menu bar and click Macsome iTunes Converter for Mac.

Choose Registration in the drop-down list, there will be a registration popup dialog.

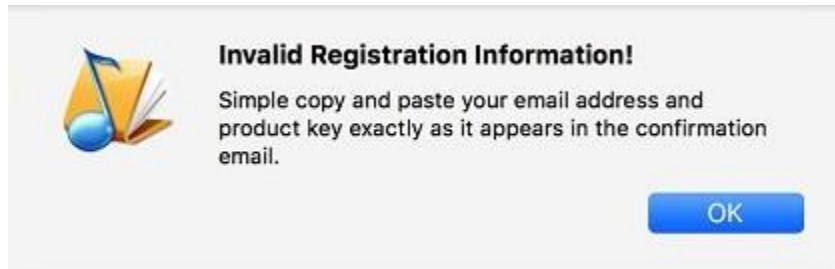

Step 2: Please fill the popup dialog with Email and Registration Code. The Registration Code is case sensitive. And, please do not add blank at the beginning or the end of the word. You can also copy and paste the Registration information into the registration popup dialog.

Step 3: After you finished the Registration, the limitation of the trial version will be removed.

Notice:

1. Make sure both the Email address and Registration Code are provided by our company after you pay the registration fee. If you have not paid, please click Buy Online to purchase.
2. Please make sure the Email address and Registration Code you entered are completely and correctly, if not, an error message will pop up as below:

Installation & Interface

Installation

To install this product, please do as the following steps:

1. Download the installation package for Macsome iTunes Converter for Mac from [Download page](#).
2. Double click the installation file iTunesConverter.dmg to start installing it on your computer.
3. Follow the instruction to finish the installation.
4. When you see a window where there is an icon of Macsome iTunes Converter for Mac, drag and drop the icon onto the desktop. Then you can just run the program from the desktop icon.

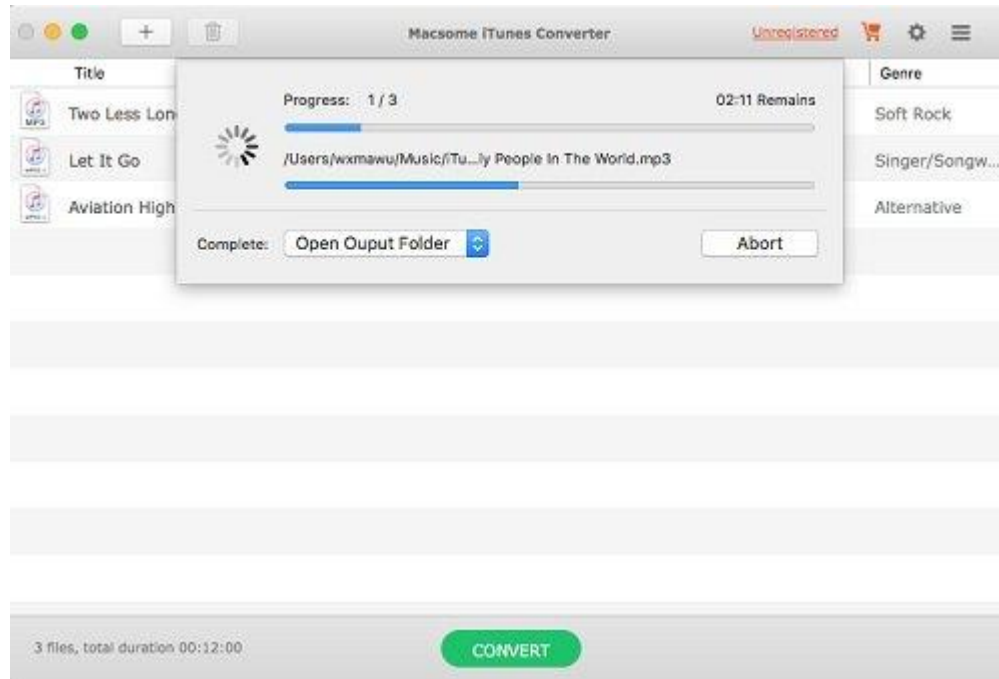

Main Interface

Launch iTunes Converter on Mac. You will see the simple and intelligible interface of Macsome iTunes Converter.

Converting Interface

After clicking the **CONVERT** button, you will see the converting interface like this:

Menu

When clicking the menu bar, you will see the menu list like this:

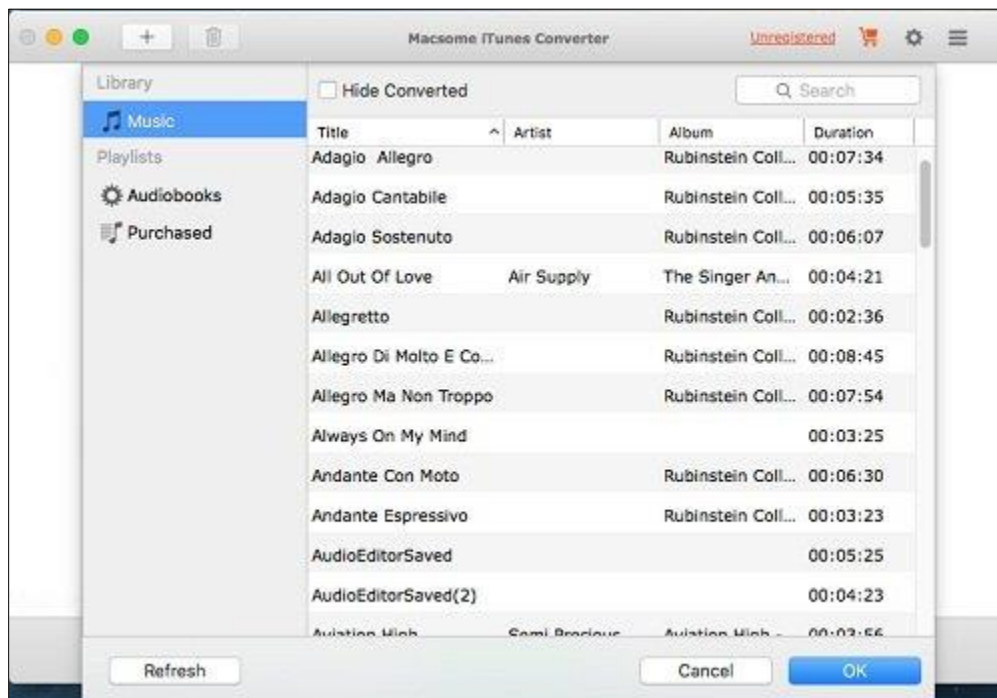

Tutorials

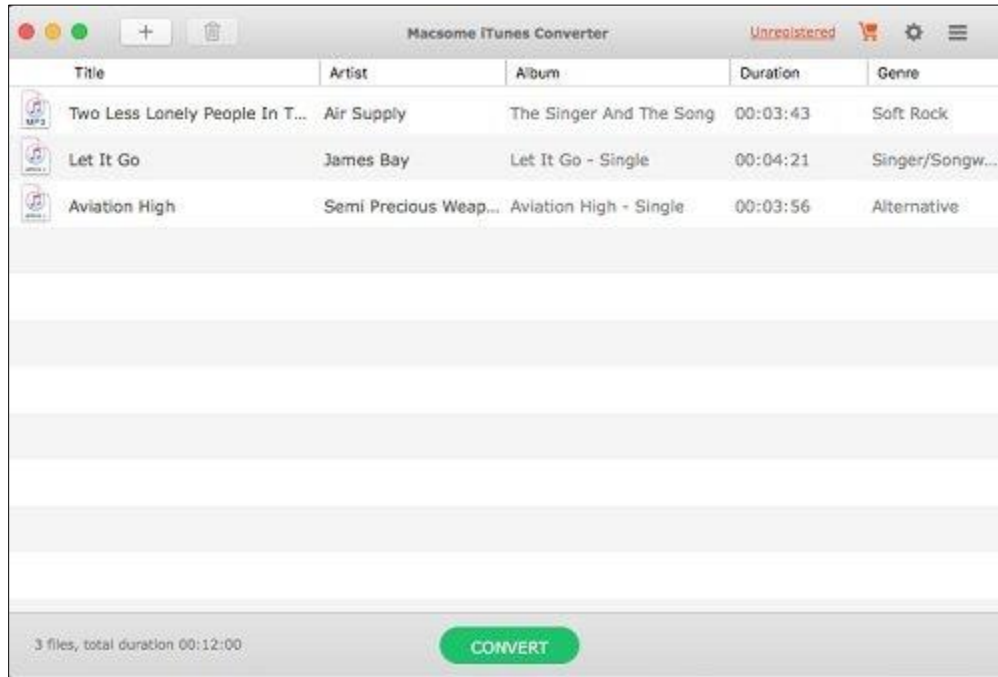

- Import Audio Files
- Delete Audio Files
- Choose Output Settings
- Customize Output Path
- Convert Audio Files
- Check History Records
- Open Output Folder

Import Audio Files

Step 1: Click  button, then you will see a pop-up window which will show you all the iTunes folders. You can add Apple Music files, audiobooks, and M4P audio in the pop-up window as you want.

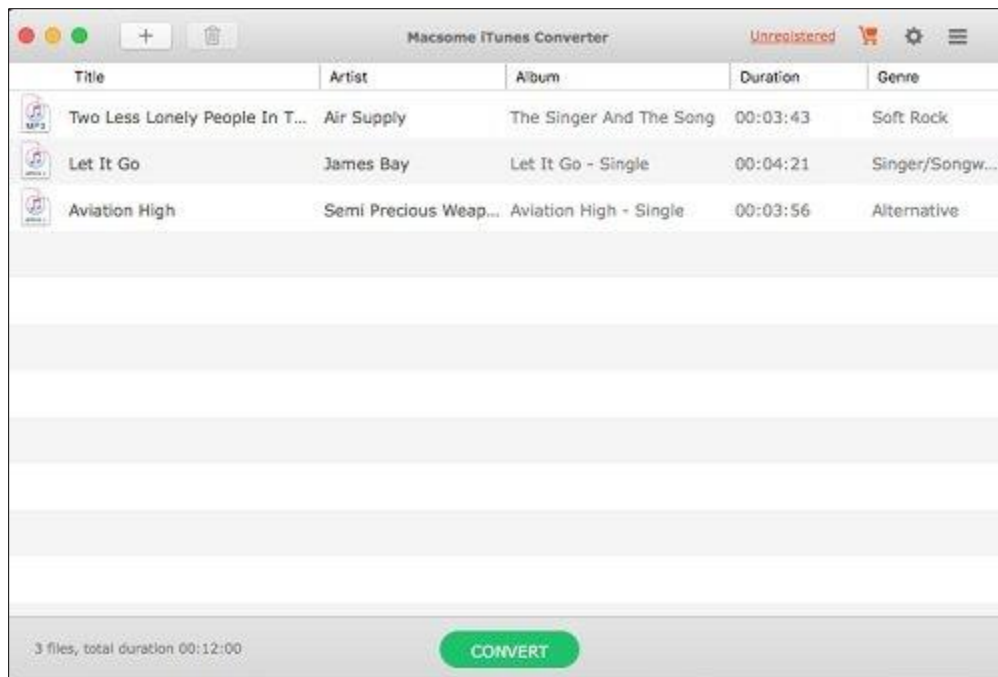

Step 2: Locate and select the files you want to add. Click the **OK** button, then you can see all the files you chose are shown in the file list.

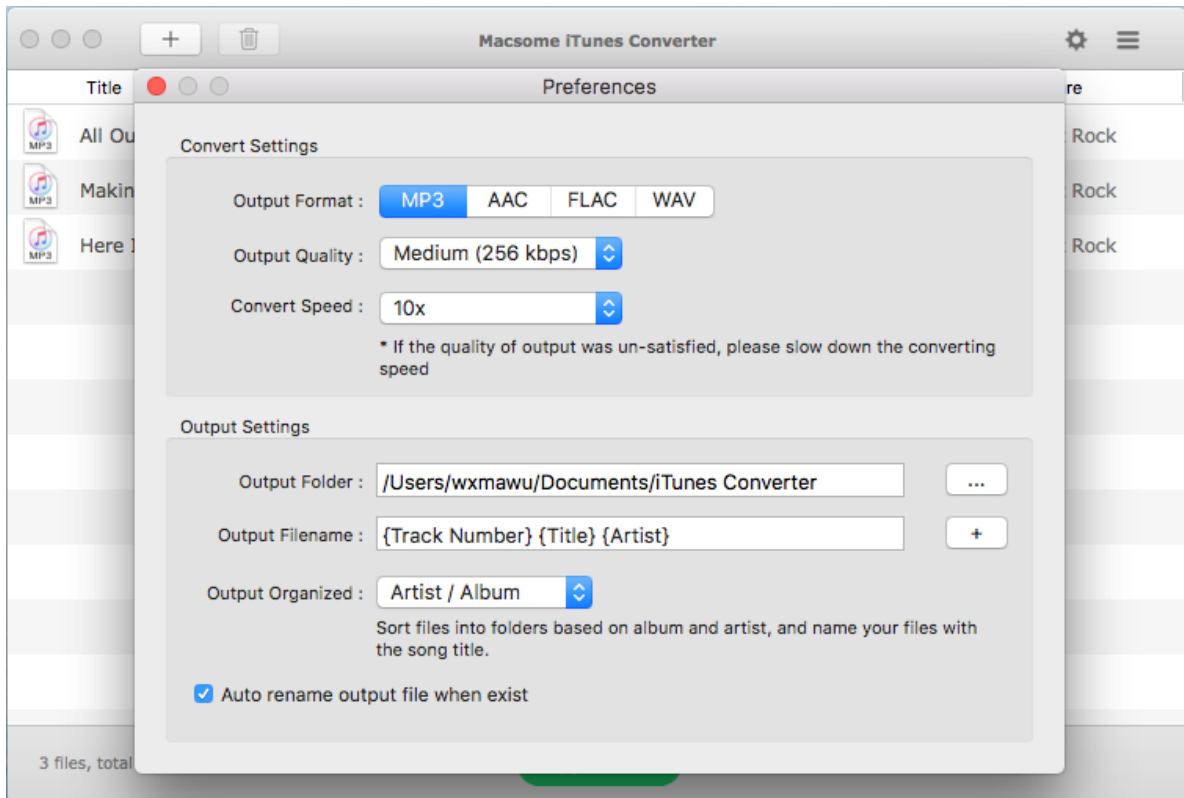

Delete Audio Files

If you don't want to convert certain music, please click  button to remove this music before converting.

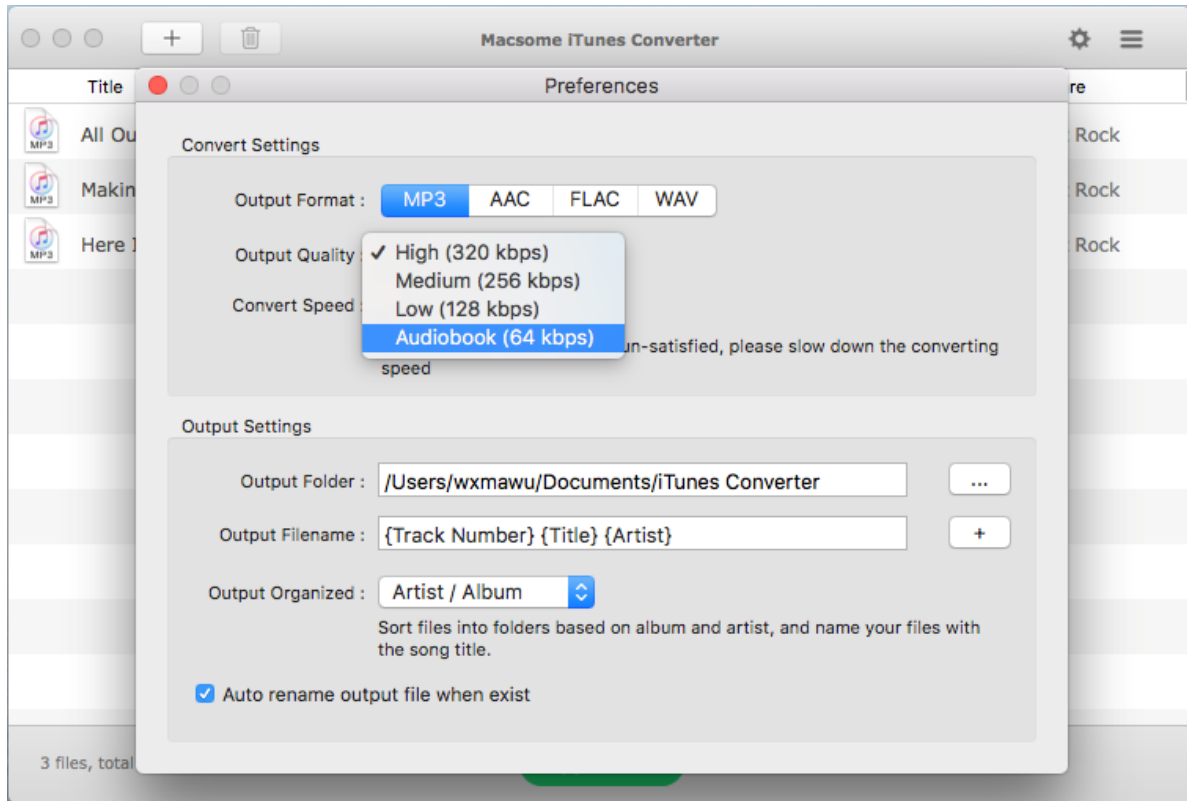

Choose Output Settings

Click the menu bar "iTunes Converter > Preferences" or directly click  button on the program interface, and then there will be a pop up window which allows you to set output path and output audio format. Output format as MP3, FLAC, WAV & AAC are available to choose.

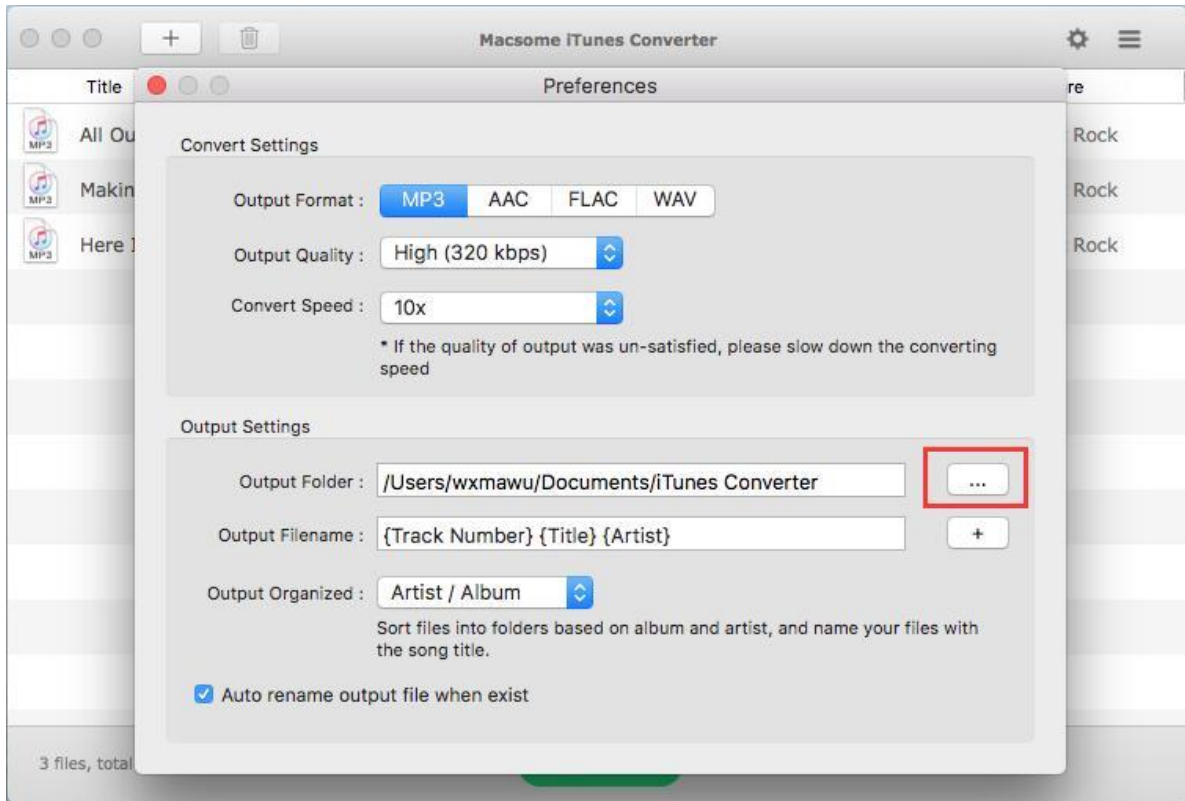

Except to output format, output quality and convert speed are available to choose.

Please note that the program supports converting Apple Music files at 1X speed only under macOS 10.14 Mojave and macOS Catalina 10.15.

Customize Output Path

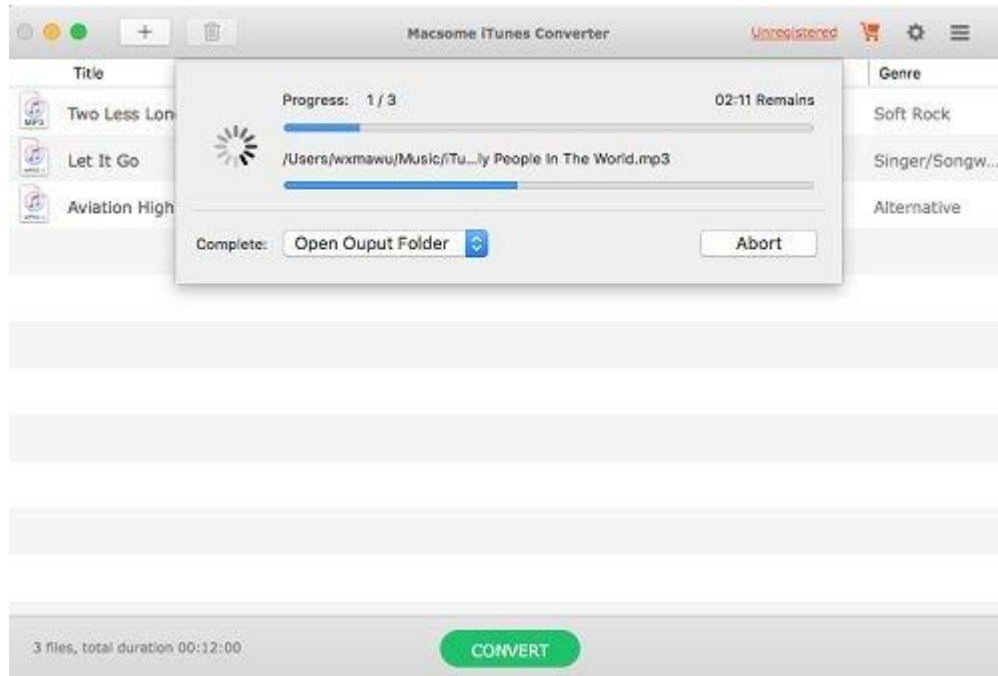

Click **iTunes Converter** > **Preferences** on the upper left of your Mac or directly click  button on the program interface, there will be a window pops up and then you can change the output path in the popup window.

Tips: If you don't change the output path, the converted files will be saved in Macsome iTunes Converter for Mac default folder.

Convert Audio Files

After adding the Audio files and customizing output path, just click the **CONVERT** button to start the converting.

Note: Before converting, make sure your computer is well authorized with the same Apple ID that you used when downloading the iTunes audio.

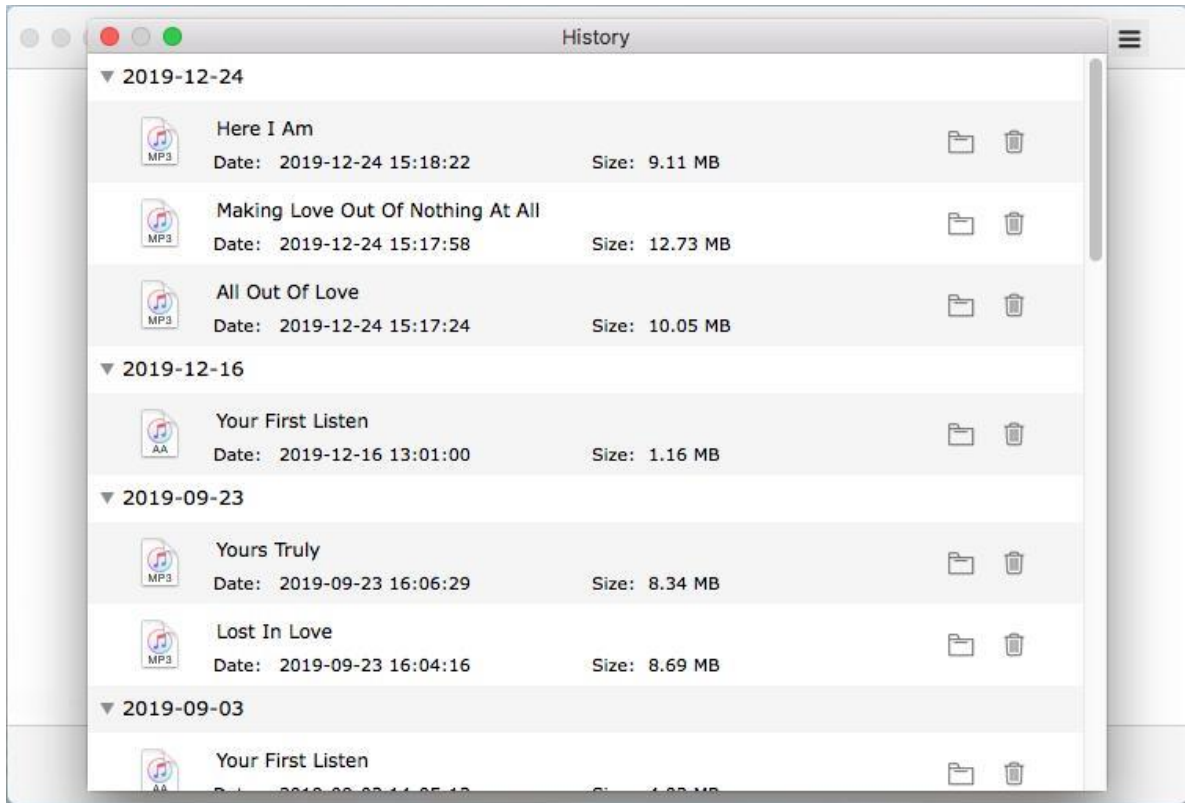

Warning: Before the Status show converting progress, iTunes will be shown and hide itself in a flash, and please don't do anything with iTunes during converting in case conversion may failed by occurring an error.

If you haven't purchased the program and use this product for the first time, when you click the **Convert** button, you will see prompt message as follows:

Check History Records

When the conversion is completed, the history records will be saved automatically. Click the History button to show up the records.

Open Output Folder

If you want to open output folder, please click the History button on the upper right to open history list and click  to open output folder.
