Purchase Macsome Spotify Downloader for Windows

Quick Link:

To learn more and download the latest version of Macsome Spotify Downloader for Windows, please visit to its homepage:

❖ <https://www.macsome.com/spotify-music-downloader/>

To buy a license key for Macsome Spotify Downloader for Windows, please [click here](#).

1. Why should I buy Windows version of Macsome Spotify Downloader?

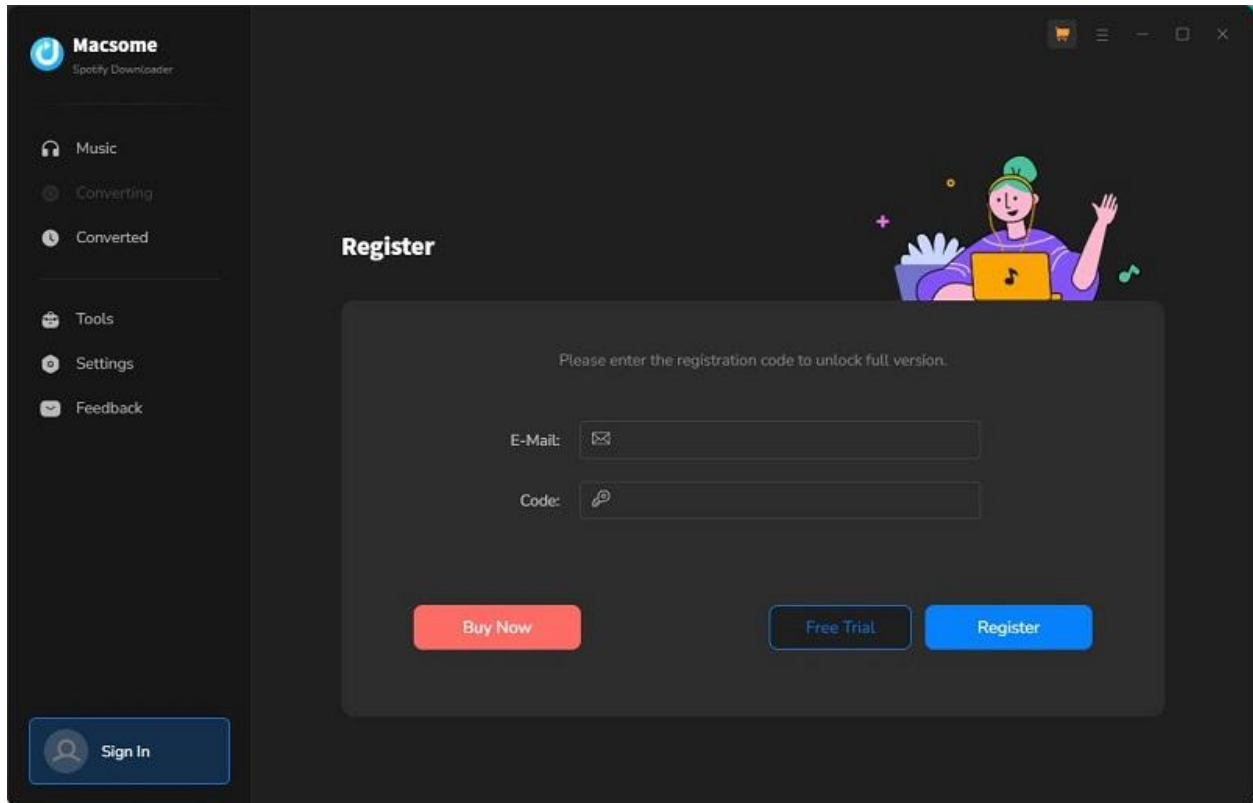

Macsome Spotify Downloader Windows version is a shareware. Trial version has the limits to convert first minute of each track for sample testing. After purchasing the program, you will be provided a license with your user ID and key code to unlock this limit.

2. What benefits do I have after registration?

- You can convert Spotify songs without time limitation.
- You can enjoy lifetime FREE upgrades to the latest versions of the same product.
- You can enjoy FREE technical supports.

Register Macsome Spotify Downloader for Windows

Step 1. Run Macsome Spotify Downloader for Windows. You can directly click the “Sign In” icon on the left or click the top-right "Menu" button and choose "Register" in the drop-down list, and you will get the registration window.

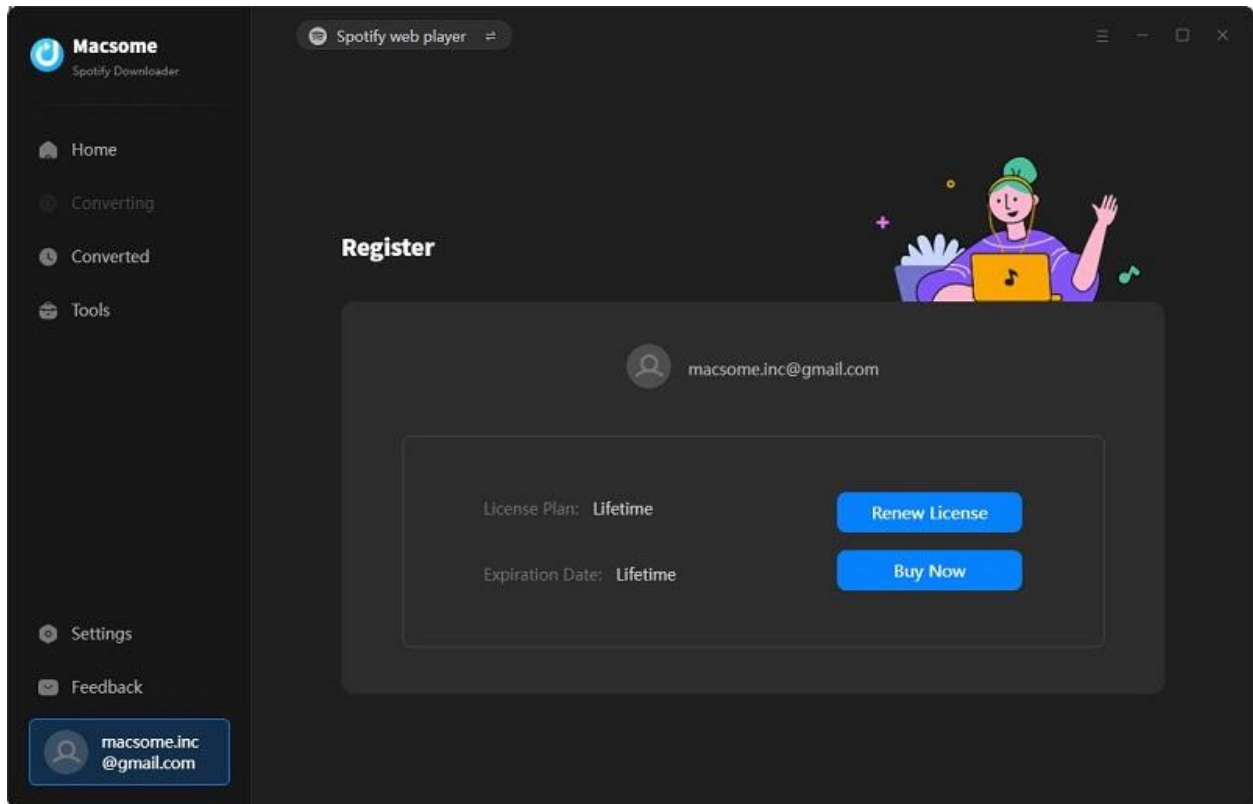

Step 2. Copy and paste the registration Email and Code into the registration popup dialog.

Note: The registration info is case sensitive. And, please do not add blank at the beginning or the end of the word. Make sure both the Email address and key code are the same as what we provided in the confirmation email after purchasing the program.

Macsome is subscription-based. If you renew your subscription, the system will send you a new license. You should activate the program using the new license.

click the top-right "Menu" button and choose "Register". Click the **"Renew License"**, and you will get the registration window.

Import Spotify Music

[Record Music from the Spotify App](#)

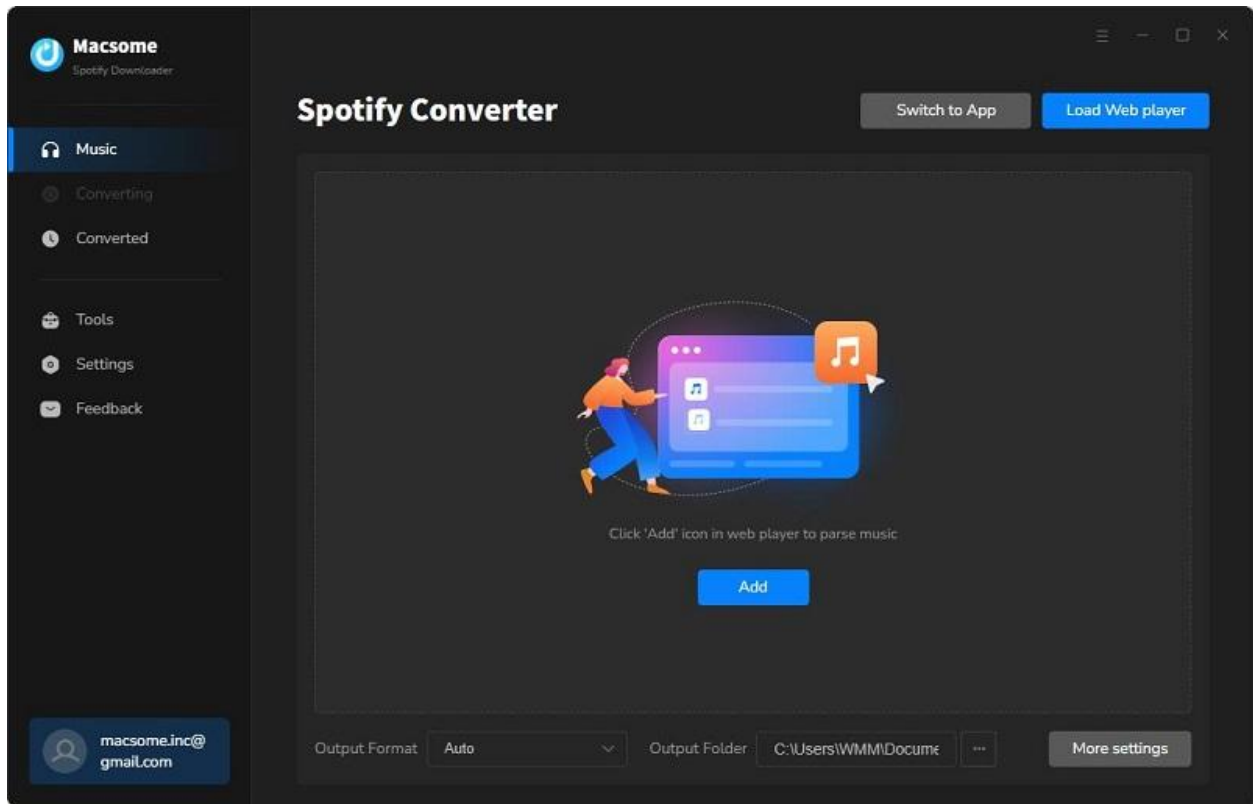

Step 1. Please drag and drop the track from Spotify to the specific detect area in Macsome directly. Or you can copy the link (Click "..." of the track or right click to choose "Share" >> "Copy Song Link"/"Copy Spotify URL"), then go back to Macsome and paste the link into the input box.

Step 2. After the tracks being added, you can uncheck the songs that you needn't convert before clicking "Add".

Record Music from the Spotify Web Player

You can also choose to download music from the Spotify web player.

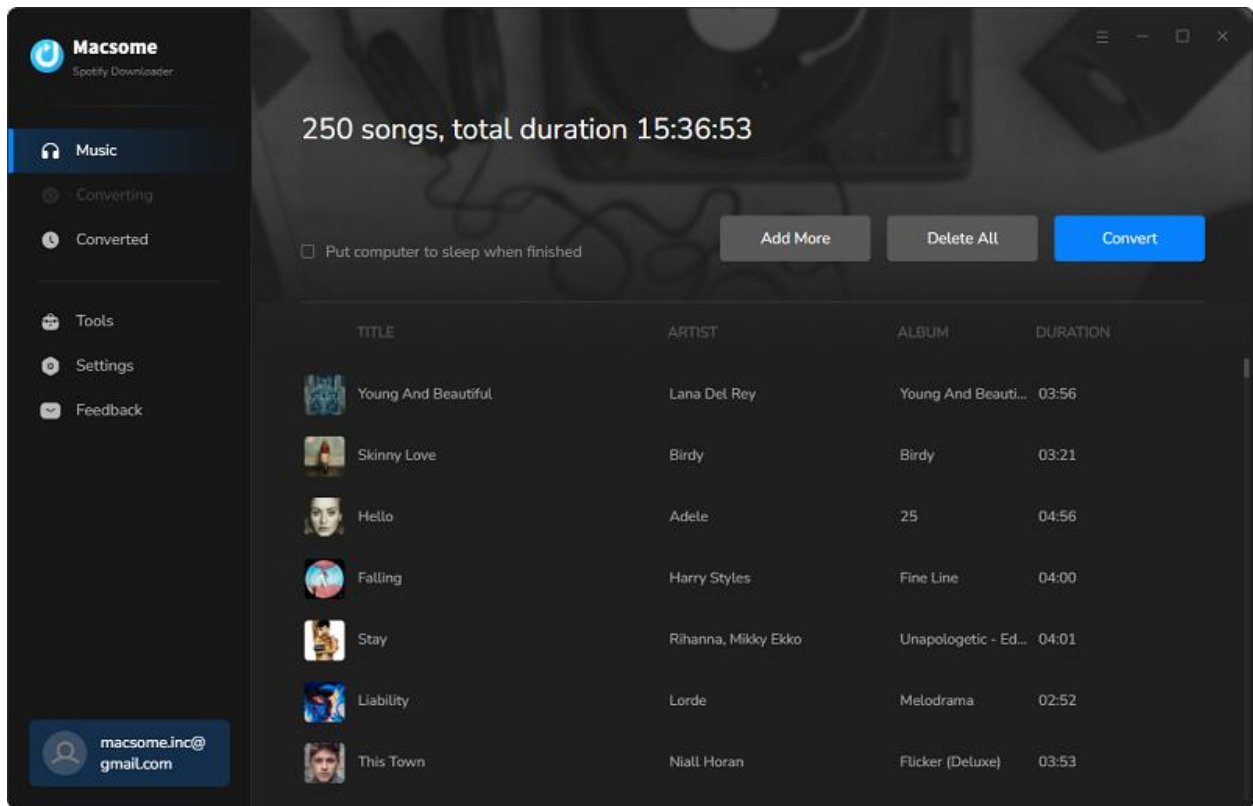

Open a playlist you want to download, then press the **“Add”** button, Macsome will parse the link.

Click the **“Add”** button, all the tracks will be loaded to the main window.

Delete Spotify Files

After clicking **“Add”**, all tracks that you need to convert will be listed below. If you still want to delete some files now, just move your mouse on the file and there is a small  to delete the file. If you think you don't want all of them, there is a  button.

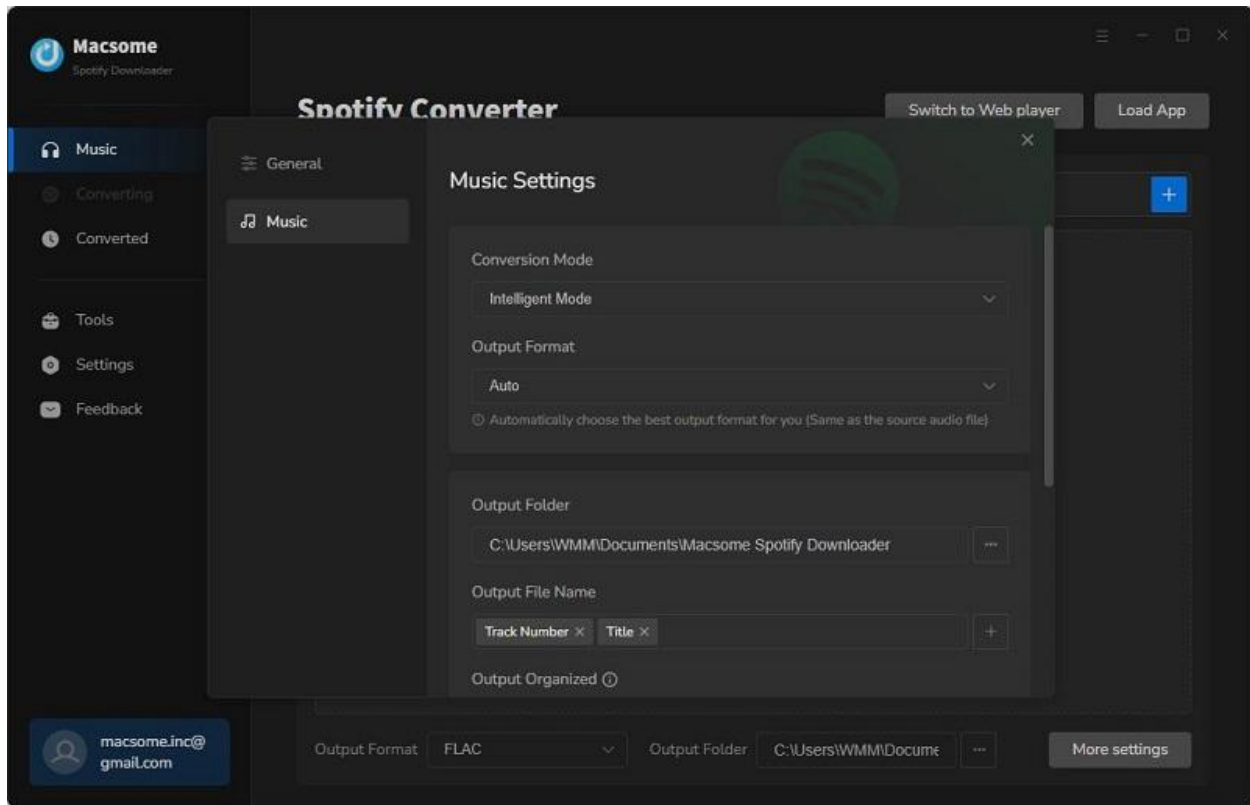

Customize Output Settings

Click on  icon on the left, and then there will be a pop-up window which allows you to set the output parameters.

Macsome provides with several output formats, you can convert songs to MP3, AAC, FLAC, WAV, AIFF, or ALAC format. Other settings parameters like conversion mode, output quality, saving path, naming format are ready for you to customize. Then just need to close the window directly to apply.
